At its session on the 28th day of February 2007 
The Senate of Tel Aviv University resolved to honor

Richard M. Karp

in recognition

of his outstanding contribution to theoretical computer science over the past forty years; his groundbreaking works in algorithmic and complexity theory that have entered the canon of computer science literature; his key and influential role in opening new scientific directions, including transporating bioinformatics into a recognized, major area of computer science; and

in special recognition

of his dedicated endeavors spanning decades as both teacher and mentor to generations of young researchers, many of whom are today renowned scientists in their own right; and his close and fruitful scientific ties with Israeli research institutions, among them Tel Aviv University,

by conferring upon him the degree of

Doctor Philosophiae Honoris Causa

of Tel Aviv University

PROFESSOR DANI LEVIATAN
RECTOR

PROFESSOR ITAAN RABINOVICH
