## The Practice of Reason

### Leibniz and his Controversies

Edited by Marcelo Dascal

Tel Aviv University

Gottfried Wilhelm Leibniz (1646-1716) dedicated much of his life to some of the most central debates of his time. For him, our chance of progress towards the happiness of mankind lies in the capacity to recognize the value of the different perspectives through which humans approach the world. Controversies supply the opportunity to exercise this capacity by approaching the opponent not as an adversary but as someone from whose point of view we can enrich our own viewpoint and improve our knowledge. This approach inspired the creation of this series. The book – the first in the series devoted to Leibniz – presents his views through actual controversies in which he participated, in several domains. Leibniz's original 'theory of controversies' thus appears not only as what the thinker *thinks* about how one *should use* reason in a controversy, but also how he *puts in practice* the kind of rationality he preaches.

[Controversies, 7] 2010. xvi, 359 pp.

#### Table of contents

Foreword

Abbreviations

Contributors

1. The principle of continuity and the 'paradox' of Leibnizian mathematics

*Michel Serfati*

2. Geometrization or mathematization: Christiaan Huygens's critiques of infinitesimal analysis in his correspondence with Leibniz

*Fabien Chareix*

3. Leibniz and the *vis viva* controversy

*Idan Shimony*

4. The controversy between Leibniz and Papin: From the public debate to the correspondence

*Anne-Lise Rey*

5. Leibniz vs. Stahl: A controversy well beyond medicine and chemistry

*Sarah Carvalho*

6. Leibniz's conciliatory approaches in scientific controversies

*Marcelo Dascal and Erez Firt*

7. Leibniz vs. Lamy: How does confused perception unite soul and body?

*Andreas Blank*

8. Leibniz vs. Foucher: Is there anything wrong with the *Système Nouveau*?

*Marta Mendonça*

9. Quantification of natural and positive laws: How to organize privileges?

*Pol Boucher*

10. Leibniz's critique of Pufendorf: A dispute in the eve of the Enlightenment

*Detlef Döring*

11. Leibniz vs. Jablonski: An intestine struggle on uniting the Protestant camp

*Hartmut Rudolph*

12. The golden rule: Aspects of Leibniz's method for religious controversy

*Mogens Lærke*

13. Leibniz vs. Bossuet: Which reasons for Irenicism?

*Christiane Frémont*
