

THE GEORGE S. WISE FACULTY OF LIFE SCIENCES

E-mail address: nuritr@post.tau.ac.il.

Graduate School

Applicants to the M.Sc. program are required to have a B.Sc. degree in Life Sciences or a comparable subject from an accredited university, with final minimum grades of 80.

0453 Molecular Microbiology and Biotechnology

0411 Plant Sciences

0421 Biochemistry

0491 Neurobiochemistry

0431 Zoology

0452 Cell Research and Immunology

Neurobiology (Interdepartmental Program)

Applications to the M.Sc. program can be accepted via the Departments of Neurobiochemistry, Zoology, Biochemistry, or other Departments in the Faculty of Life Sciences, following approval by the Neurobiology Program Committee.

The program is designed for students with a B.Sc. degree in Life Sciences or related areas, who are interested in studying the nervous system at either the molecular, cellular, or system level.

Further details and proposed research directions are available at the Student Secretariat, the Faculty of Life Sciences.

Ecology and Environmental Quality

(Interdepartmental Program)

The program consists of three tracks: biotechnology; microbiology; and ecology and environmental quality.

Genetics (Interdepartmental Program)

Applicants to the M.Sc. program can be accepted via all the Departments of the Faculty of Life Sciences. The program is designed for students with a B.Sc. degree in Life Sciences or related areas, who are interested in the study of the expression of genes, their regulation, and their transference from generation to generation.
