

Israeli Journal of Humor Research: An International Journal

The Israeli Association for Humor Research has two refereed e-journals: *Humor Mekuivan*, which is mainly in Hebrew, but also publishes papers in English, has a board at the national level. The *Israeli Journal of Humor Research* has an international advisory board, and aims at an international readership and pool of contributors. With respect to the veteran journal in the field, *HUMOR*, the *Israeli Journal of Humor Research* has, on the one hand, a somewhat wider scope, ideally making, for example, more room for literary or folklore studies; the journal is open to any disciplinary perspective that contributes to the scholarly understanding of humor. On the other hand, the *Israeli Journal of Humor Research* encourages the formation of specialist streams under its umbrella, such in the psychology of humor, or in computational humor.

For both journals: **Editor-in-Chief: Arie Sover**
 Associate Editor: Ephraim Nissan
