**Booking Hotel Accommodation – CEO Guideline**

1. Following renewal of the agreements with hotels in Tel Aviv, special prices and terms were obtained for Tel Aviv University for its guests from abroad, as set forth in the price lists published on the supply unit's website.
2. The standard of accommodation will be determined by the budget holder (researcher/unit) and there will be a limitation on a monetary expenditure of **up to NIS 800** per person per night under bed and breakfast conditions in a single room. Such a limitation means there is no need for special approval, except for the issue of an order in the ordinary format from the price lists in Appendix 1.
3. In exceptional cases it will be possible to be accommodated in a hotel at a cost of **over NIS 800** a person per night, subject to obtaining the CEO's prior approval for the guest and a hotel suiting him/her.
4. In cases of accommodation for couples, it is necessary to obtain the CEO's prior approval for the booking.
5. In cases of accommodation of Israeli residents, it is necessary to obtain the CEO's prior approval for the booking.
6. The list of hotels recognized by the University is attached in the Appendices, but other hotels may be chosen with suitable tariffs.
7. For long stays (over 5 nights) it is recommended to use accommodation in vacation apartments.  
In case of more than 5 nights' accommodation it is necessary to request a lower price, with reference to the number of nights booked.
8. In case of agreements with a supplier not appearing in the price lists it is necessary to pass on the details of the supplier to the supply unit so that it can check and approve the agreement with it. Only after the supply unit's approval will it be possible to issue a procurement request in the logistics system.

9. **Please note the following:**

- A. The price lists relate to all days of the year except the month of August and the week of Passover, for which it is necessary to obtain a separate price estimate from the hotel.
- B. Some of the approved hotels (up to NIS 800) exceed the tariff in certain seasons and/or with the types of rooms, and therefore it is necessary to make certain to book only on dates and at a tariff lower than / equal to **NIS 800**.

10. **Reserving Rooms**

- A. A representative of the host unit will transfer a request to a hotel appearing in the price lists by fax/email as early as possible, and at least two weeks before the accommodation date.
- B. The request will include the following details: guest name, date of arrival and departure and type of room required.
- C. This request does not constitute an undertaking from the University to book the rooms, only to reserve places for the desired dates according to the grade of accommodation required and the agreed price list.

11. **Booking Rooms**

- A. The University's undertaking for booking the rooms enters into effect upon receipt of the official booking signed by the persons with authority to sign on behalf of the University and including the guest name, exact dates of accommodation and the type of room at the agreed tariff. It is possible to perform a booking for accommodation in hotels by means of a "price list agreements" booking. In the case of an exceptional tariff, a procurement request must be passed on to the supply unit. No booking should be made of one accommodation service **via more than one booking**. (Splitting bookings is prohibited).
- B. The booking must specify the number of nights, the tariff per night and the guest names.

12. **Additions**

Please note that prices do not always include additional services such as use of the business lounge, internet and other services for which there is a separate charge, each hotel having
